

2017-2018 Medically Complex Training Schedule

18- Hour class held on 3 separate days

What is Medically Complex?

A Medically Complex child is a child with special healthcare needs as determined by DCS and includes children who have or are at risk for chronic physical or developmental conditions and who require health and related services of a type or amount beyond that required by children generally.

There is no cost for this class if you are a foster/adoptive family through an agency.

We schedule per family needs.
